

```
3 import java.util.Scanner;
4
5 public class ClassA
6 {
7     static Scanner sc =new Scanner(System.in);//Instance Variable
8     void empData()
9     {
10         System.out.println("Employee Details Entered by user: ");
11         System.out.println("Enter EmpName: ");
12         String name=sc.next();
13         System.out.println("Enter EmpId: ");
14         int id=sc.nextInt();
15         System.out.println("Enter EmpSal: ");
16         int sal=sc.nextInt();
17         System.out.println("Enter EmpAddress: ");
18         String addr=sc.nextLine();
19
20         System.out.println("EmpName: "+name);
21         System.out.println("EmpId: "+id);
22         System.out.println("EmpSal: "+sal);
23         System.out.println("EmpAddress: "+addr);
24     }
25     public static void main(String[] args)
26     {
27         new ClassA().empData();
28     }
29 }
```

Employee Details Entered by user:
Enter EmpName:
Kishan
Enter EmpId:
101
Enter EmpSal:
1000
Enter EmpAddress:
EmpName: Kishan
EmpId: 101
EmpSal: 1000
EmpAddress:

Next line will accept a new line as its input

```
10 System.out.println("Employee Details Entered by user: ");
11 System.out.println("Enter EmpName: ");
12 String name=sc.next();
13
14 System.out.println("Enter EmpId: ");
15 int id=sc.nextInt();
16
17 System.out.println("Enter EmpSal: ");
18 int sal=sc.nextInt();
19
20 System.out.println("Enter EmpAddress: ");
21 sc.nextLine();
22 String addr=sc.nextLine();
23
24 System.out.println("EmpName: "+name);
25 System.out.println("EmpId: "+id);
26 System.out.println("EmpSal: "+sal);
27 System.out.println("EmpAddress: "+addr);
28
29 }
30 public static void main(String[] args)
31 {
32     new ClassA().empData();
33 }
34 }
```

Employee Details Entered by user:
Enter EmpName:
Kishan
Enter EmpId:
101
Enter EmpSal:
10000
Enter EmpAddress:
ameerpet hyderabad
EmpName: Kishan
EmpId: 101
EmpSal: 10000
EmpAddress: ameerpet hyderabad

Write a program by using this

```
if()
{
    if()
    {

    }
    else
    {
        switch()
        {
            while()
            {
                do
                {
                    for(;;)
                    {

                    }
                }
                while();
            }
        }
    }
}
```
